I have a lot of friends there and I enjoy studying. My best subject is Geography, probably because it's the easiest too! My most difficult subject is Math - I'm terrible and I don't like my teacher. I love playing sports, especially basketball. I'm the tallest player in the school team and I usually play really well. It's the happiest part of my day. My coach says that one day I could play professional basketball! At the weekend I spend a lot of time with my friends Ralf and Kurt. We do everything together and they are very important people in my life.
